

CERAMICSPEED bearings

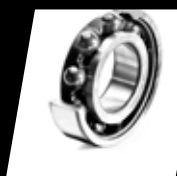

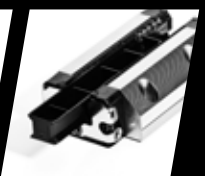

LongLife Corrotec

Advantages

- 4-8 times longer lifetime
- Corrosion resistant
- Grease type and quantity optimised for the specific application
- Food industry approved grease
- Same load bearing capability as standard steel bearings
- Lower inertia of CeramicSpeed balls reduces wear on the raceways
- Bearing solutions for your specific needs

Application

Used in corrosive and humid environments. Ideal for both high and low speed processes.

					
Ball bearings with shaft diameter from 5 - 200 mm	Deep Groove Series: 618, 619, 60, 62, 63 og 64	Angular Contact Series: 718, 719, 70, 72, 73, OJ2 og OJ3	Spherical Series: ` 108, 12 13, 22 og 23	Thrust Series: BA og 51	Y/UC Series: YAR/YAT/ YET/UC etc.
CeramicSpeed LongLife Corrotec	F S	F S	F S		F S

F Grease optimized for lifetime and approved for food production

S Low speed bearing with increased fill rate
